Legged Autonomous Surface Science in analog Environments (LASSIE)

Principal Investigator: Cristina Wilson
Contact Information: cristina.wilson@oregonstate.edu

Purpose: We are inviting you to take part in a research study. This study is being done to understand (i) how Earth and planetary scientists make data collection decisions, and (ii) how AI-enabled robots can support decision making.

Activities: You will be presented with a simulated data collection scenario and asked to make judgements. No identifying information about you will be collected, but you will be asked to report demographic information. Participation will take no more than 20 minutes.

Voluntary: You do not have to be in the study if you do not want to. You may choose to quit at any time.

Confidentiality: We will protect the information you share by not collecting any direct identifiers that allow the data to be linked back to you.

Questions: If you have questions about this research study, you may contact PI Cristina Wilson, cristina.wilson@oregonstate.edu

Research Protections: The Oregon State University Human Research Protections Program (HRPP) has determined that this study is exempt. If you have concerns about your rights as a research participant their office can be reached at (541) 737-8008 or by email at IRB@oregonstate.edu.
